---

Good morning,

The Pre-RD Group is starting today's fish tracking activities in SIL. The crew will establishing communication with the receivers and collecting receiver status/health; battery life remaining; memory used; and tilt angle. The crew will not be pulling moorings on board the vessel today if issues are detected. If issues are detected, the Pre-RD will schedule a date to retrieve the receivers and perform a diagnostics check at a later time. Included are photos of the crew collecting receiver information.

Jonni
